

Faith-Based Organizations Grant Questions

Faith-based organizations constitute a unique and important part of our society, particularly for Jackson County. The Community Foundation of Jackson County exists to help and support community projects of all types and for all Jackson County residents. To better understand your project and present it in the most positive light, the Community Foundation's Grant Committee requests that these questions be asked in addition to the questions on the Grant Proposal Form.

1. Is your proposed program a religious outreach project or a community service project?

2. How many people will be served by this project? What percentage of those served are members of your organization? Will members of your organization receive preference to participate?

3. Are participants required/expected to participate in religious practices as a part of the proposed program?

4. Are there other faith-based organizations participating or collaborating in your proposed project?

Please submit this form along with your grant proposal.
